Jayesh Khandelwal

Full Stack Web Developer

Professional Summary

Versatile full-stack web developer excelling in the MERN stack, demonstrating a remarkable capacity for swiftly mastering new tech stacks. Adept at leveraging Generative AI and employing creative problem-solving skills, consistently delivering exceptional web solutions through solo and collaborative projects.

Projects

Gadget Vault   Live Demo Link   Github Repo Link

React.js   Redux   Chakra UI   JavaScript   HTML   CSS   Json-Server

- Engineered the GadgetVault E-commerce powerhouse, where we bring tech, wellness, and more to your doorstep.
- Crafted a visually captivating homepage with an intuitive navigation bar and footer for seamless site navigation.
- Engineered feature-rich product and cart pages with sorting, filtering, and a search feature for quick product discovery.
- Orchestrated a secure and user-friendly payment page to streamline the shopping experience.
- Designed and developed the Admin Dashboard for efficient management of products, orders, and user accounts.

Code-Editor   Live Demo Link   Github Repo Link

React.js   Node.js   Express.js

- Developed a solo project, 'Code-Editor-Converter,' utilizing React.js for an intuitive frontend and Node.js/Express.js for backend functionality.
- Implemented features for code conversion, debugging, running, and quality assessment, supporting various programming languages.
- Utilized Generative AI technology in the project's development, showcasing innovative problem-solving and cutting-edge AI application.
- Completed the project within a one-day timeframe, demonstrating efficiency, time management, and the ability to deliver high-quality solutions promptly.
- Ensured industry-standard quality and scalability by employing React.js for the frontend, while Node.js and Express.js powered the robust backend functionalities.
