Portfolio

Jayeshkhandelwal

Jayesh khandelwal

Education

Bachelors in Computer Application (BCA)

IGNOU, Mumbai

July 22 - Present

Full Stack Web Development (Full time)

Masai School, Bangalore

September 22 - August 23

Higher Secondary Education

Shri MK Mehta English Medium

High School

April 20 - April 22

Technical Skills

Next.js TypeScript

JavaScript React.js Node.js

Redux Express.js

Generative AI Shadcn UI

Tailwind CSS MongoDB

Soft Skills

Teamwork

Effective Communication

Problem Solving Adaptability

Achievements

Full Stack Web Development

(Masai School , Full time)

Bangalore, India

Jayesh Khandelwal

Full Stack Web Developer

Professional Summary

Proactively developed full-stack web professional, skilled in MERN stack, excelling in creative problem solving and teamwork. Leveraging Generative AI, JavaScript, React, Node.js, and MongoDB, swiftly delivering exceptional web solutions.

Experience

Emitrr - Software development Engineer -1

- Collaborated with cross-functional teams to design, develop, and implement scalable web applications using the MERN (MongoDB, Express.js, React, Node.js) stack, ensuring optimal performance and user experience.
- Contributed to the full software development lifecycle, from requirement analysis and system design to coding, testing, and deployment, adhering to agile methodologies and best practices.
- Participated in code reviews, debugging sessions, and performance optimizations, consistently delivering high-quality, well-documented code that met or exceeded project requirements.

Projects

StudyNotion [Live Demo Link](#) [Github Repo Link](#)

React.js Node.js MongoDB Express.js Redux

- Fully functional ed-tech platform for creating, consuming, and rating educational content
- Built with the MERN stack - React.js, Node.js, MongoDB, and Express.js
- Client-server architecture with RESTful API design using React.js and Node.js
- Deployed on Vercel, Render/Railway, Cloudinary, and MongoDB Atlas
- Implemented user authentication, course management, and payment integration

Genius AI [Live Demo Link](#) [Github Repo Link](#)

Next.js TypeScript OpenAI Shadcn UI Prisma

Clerk Stripe Tailwind CSS

- Developed 'Genius', an AI-based platform with features to converse and generate images, music, videos, and code using advanced artificial intelligence.
- Implemented the project as a solo endeavor, completing it within a tight timeframe of 3 days.
- Utilized Next.js, TypeScript, Tailwind CSS, Shadcn, Prisma, Clerk, and OpenAI technologies to create a robust and versatile platform.
- Engineered the conversational aspect of the platform, enabling seamless interactions with users through AI-driven responses and engagement.
